Summary

Senior Product Designer with 5+ years of experience designing end-to-end digital products across OTT and streaming, SaaS, enterprise communication, e-learning, e-commerce, and AI-powered platforms. Experienced in translating complex business requirements into intuitive user experiences across Web, Mobile, Smart TV, and STB. Skilled in UX strategy, interaction design, wireframing, prototyping, scalable design systems, and cross-platform UI architecture. Proficient in Figma and collaborative product development, partnering with product, engineering, and QA teams to deliver consistent, accessible, and user-centered digital experiences.

Core Strengths

UX & Product Design

Product Design, UI/UX Design, Interaction Design, Information Architecture, User Journeys, User Flows, Wireframing, Prototyping, Complex Workflow Simplification

Design Systems & UI

Design Systems, Component Libraries, Design Tokens, Figma Variables, Theming, Responsive Design, Multi-platform UI, Accessibility (WCAG)

Research & Validation

User Research, Usability Testing, User Personas, Journey Mapping, Design Validation, Iterative Design

Product Domains

OTT & Streaming, AI-powered Products, SaaS, Enterprise Communication, E-learning, E-commerce, CMS & Admin Tools, Marketing Websites

Tools & Technologies

Figma, FigJam, Framer, Adobe XD, Photoshop, Sketch, ChatGPT, Claude, Claude Code, Google Gemini, Cursor, Midjourney, Adobe Firefly, VS Code, GitHub, WordPress, Vercel, Jira, Confluence, HTML, CSS.

Experience

Senior Product Designer

QuickPlay Media Pvt. Ltd. | Chennai, India

July 2024 – October 2026

- **Key projects:** SonyLIV, Quickplay AI Studio, Telekom Malaysia Unifi TV, Cignal, PLive, TVNZ, CMS & Operations Tools
- Drive end-to-end product design for OTT platforms serving major broadcasters and telecom providers across Web, Mobile, Smart TV, and STB, from requirement analysis and user flows to high-fidelity UI, prototyping, and developer handoff.
- Translate business requirements into intuitive user journeys, interaction flows, wireframes, and production-ready interfaces in collaboration with product managers, engineering, and QA teams.
- Standardize UI patterns across 3 themes and 200+ live channel apps, improving brand consistency and streamlining new channel onboarding.
- Scale and maintain an OTT design system across 5 platforms using reusable components, Figma variables, and design tokens to improve consistency and implementation efficiency.
- Design a Live Ops Management system for 200+ live channels, improving operational visibility and supporting incident management and stream stability.
- Conceptualize and deliver an AI-powered UV validation platform that automates lifting checks, mismatch detection, Jira ticket creation, and report generation, replacing manual validation workflows.
- Design CMS and operations tools for content and support teams, partnering with engineering and QA to deliver 18+ resource validation workflows and improve release readiness.
- Enhance ML-driven content discovery through improved highlight visibility and interaction design, refining experiences based on stakeholder feedback, technical constraints, and product priorities.

UI UX Designer
KPOST Software Pvt. Ltd. | Chennai, India
September 2022 – July 2024

- **Key projects:** Enterprise Communication SaaS, Kampus E-learning Platform, Project Management Platform
- Led end-to-end UX design for an enterprise communication SaaS platform integrating chat, email, calls, scheduling, directory, cloud storage, and commerce into a unified ecosystem.
- Designed Kampus, a role-based e-learning platform for students, teachers, and administrators, covering dashboards, live classes, attendance, assignments, and examinations.
- Designed a project management platform, defining user flows and interfaces for task planning, progress tracking, and team collaboration.
- Streamlined academic workflows and performance tracking to improve transparency, simplify processes, and support day-to-day school operations.
- Established reusable UI components and consistent design patterns across communication, productivity, and education products to improve usability and design scalability.

UI UX Designer
Think Digital Wordings Pvt. Ltd. | Chennai, India
July 2021 – September 2022

- **Key projects:** KUN BMW · ST Courier · plus 40+ corporate, e-commerce and marketing sites
- Designed and delivered 40+ responsive WordPress websites across automotive, logistics, e-commerce, and corporate sectors, covering end-to-end UI/UX design, user flows, wireframing, information architecture, and responsive layouts.
- Designed flagship websites, including KUN BMW and ST Courier, translating business requirements into user-centered digital experiences through intuitive navigation and conversion-focused design.
- Created high-fidelity UI designs, interactive prototypes, reusable UI components, and brand assets using Figma and Adobe XD. Developed customized WordPress themes, ensuring responsive design, cross-browser compatibility, and visual consistency in collaboration with clients and development teams.

Education

Master of Computer Applications (MCA)
Mailam Engineering College | Anna University
2019 - 2021

Bachelor of Science (B.Sc.) – Computer Science
St. Ann's College of Arts & Science | Thiruvalluvar University
2016 - 2019

Higher Secondary Certificate (HSC)
Kennedy Matric Higher Secondary School, Rettanai, Villupuram
2015 - 2016

Certifications & Achievements

UX Process Professional Certificate
Google | Coursera | 2022

UI/UX Mentorship Program
De Mentée Academy, Pondicherry | 2021
